SHEFFLER UPDATE - October 2021

NIGERIA

Sunday Obeten is doing well health wise. The leg is healed and the molding stage for the prosthesis is done. He should receive the prosthesis soon.

Sunday and Regina announces with great pleasure that their daughter Connie is getting married on December 4 and their daughter Jessica is getting married December 11. They request that you celebrate with them and pray for the success of the two marriages.

The Women's Day observed on October 10 went well. Extension classes (TEE) will hold final exams for the term the end of November.

A newly established farm project is off to a good start. A borehole well has been completed. Two hundred broilers are growing well. Two thousand fish fingerlings in four tanks are also growing well. By God's grace, when the farming season begins next year, they will plant rice and plantain.

GHANA CHURCH PLANTERS

We are focusing more attention on establishing a strong congregation at Kintampo. A college was recently turned into a university. This is increasing the population and the opportunities for the Lord's work. The census for Kintampo in 2010 was 95,480. That number has greatly increased. The church at Glumpe established by Daniel Marley is well established and has its own leaders. We have leased an apartment in Kintampo for Daniel and his wife Grace for two years. We wish that the basic shell of the church building would have been finished by now, but lack of funds because of Covid had delayed the project. Only the foundation is finished.
